Gorobet Nicolae

OBJECTIVE

My main objective is to learn and collaborate with new people in the IT industry, specifically in software development. I aim to become a skilled software engineer. I am currently a student in Romania but I am a citizen of Moldova with an active residence in the Republic of Moldova, and I have the possibility to work remotely from the Republic of Moldova as well.

EXPERIENCE

OCT-2022 First year Computer Science STUDENT
I became a student at the Faculty of Automation, Computers, Electrical Engineering, and Electronics, specializing in Computer Science and Information Technology at UDJ Galati.

JULY-2022 Start Front-End: REACT, JS, HTML, CSS, SCSS, DOM, BOOTSTRAP, Git, OOP.
I have personal projects that you can find on the indicated website or Github. I am capable of working and learning modern web development technologies.

EDUCATION

2022 - First year Computer Science student at the UDJ Galati.

ABILITIES

I have a strong knowledge in the field of information technology and a solid foundation in web development. I understand how to create a specific product with certain technologies in accordance with client requirements. I can work on both the Front-End and Back-End, in junior-level positions.

I am a responsible individual who is always passionate about learning new things and willing to dedicate my time and interest to a new project. Additionally, I aspire to work in a team where I can develop my skills and collaborate with other team members. Currently, I do not have commercial experience in a real work environment, but I consistently work on web projects alongside my studies and have several personal projects on GitHub.
